

SAFETY FIRST. WE'RE IN THIS TOGETHER.

The continued safety, well-being and overall health of our customers and team is a top priority. We are taking every precaution necessary to ensure that our moves are safe for all.

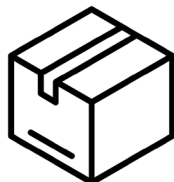

To do our part to help prevent the spread of illness, we have received direction regarding safety measures that go beyond the prevention guidelines issued by the CDC.

Included below are guidelines from the American Moving & Storage Association to assist with any moving activities you have planned in the near future.

Online, video & virtual estimates allow you to plan your move while maintaining social distancing.

Inquire with your coordinator about the various options available.

Fresh, clean supplies

Use new moving supplies such as paper, boxes and tape; this isn't the time to re-use materials that may be compromised.

Smiles, not shakes

All personnel have been directed to avoid personal contact, so please don't take offense if you don't get a handshake. We will greet you with a no-contact smile!

Germ-free moves by germ-free movers

If you can, please provide your moving crew access to a sink, soap and paper towels through-out your move. If this isn't practical, please provide hand sanitizer.

Need to reschedule?

If anyone within your household may have contracted Coronavirus, or are isolating due to exposure or potential exposure, call your coordinator as soon as possible.

Every effort will be made to accommodate your schedule.
