

Yembo is the fastest, easiest way to get an accurate moving quote and lock in your preferred move date. Simply record a few videos using the camera on your smartphone.

## How to Yembo

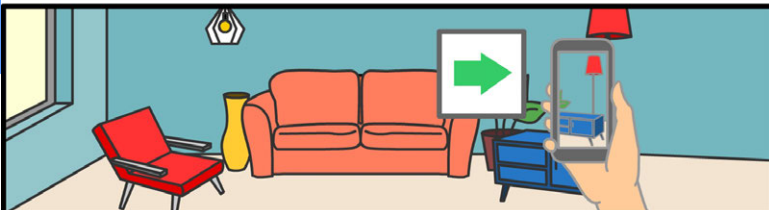

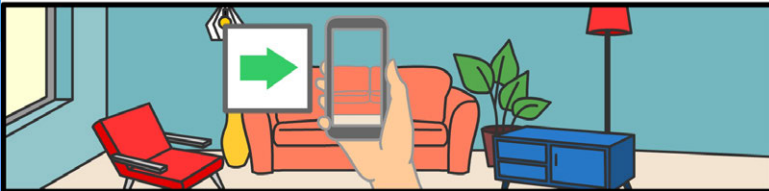

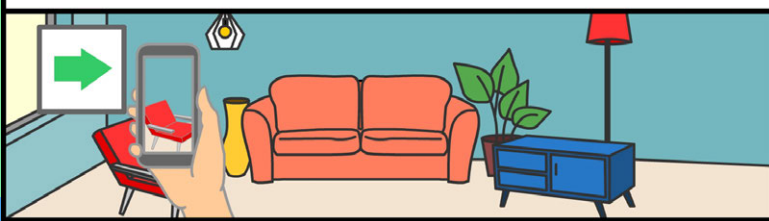

Turn on the lights.

Record from a spot where you can capture everything with minimal walking.

Pan slowly, recording each item once. Most rooms are recorded in 30 seconds or less.

If any items are not moving, mention them as you record (or put in "notes" after).
